Innovation highland connecting digital agriculture and irrigation technology will be held from March 31 to April 2, 2025

Innovation highland connecting digital agriculture and irrigation technology will be held from March 31 to April 2, 2025

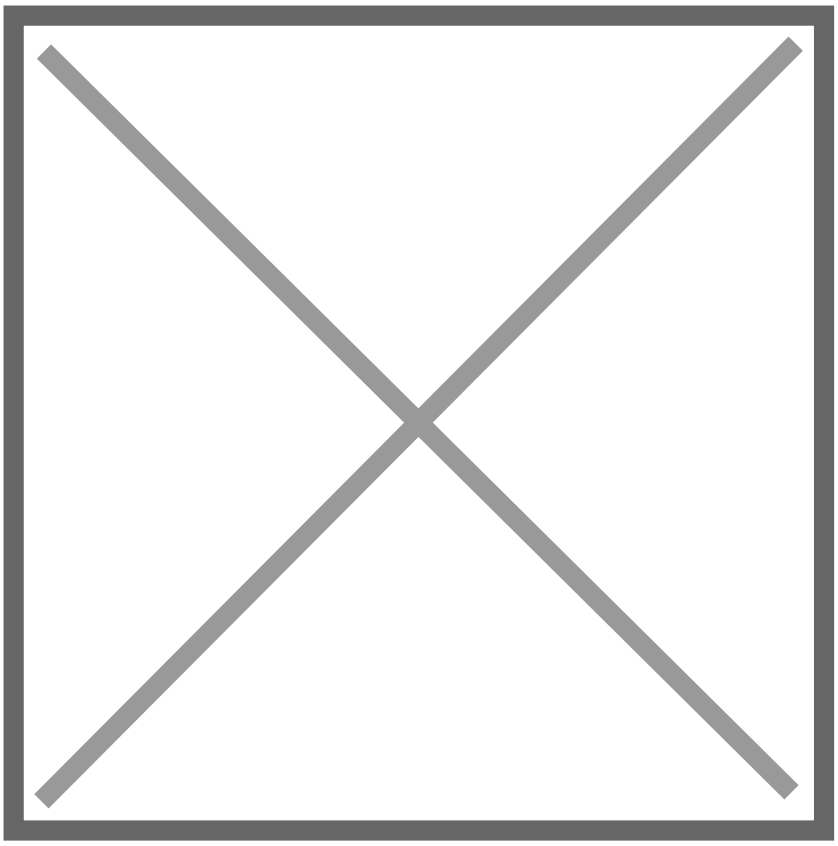

The Beijing National Convention Center will host the "World Irrigation Technology Conference" and "11th Beijing International Digital Agriculture and Irrigation Technology Expo" from March 31 to April 2, 2025, in order to integrate global wisdom and create a blueprint for digital agriculture in the world.

The event is being hosted by the China Agricultural Water Saving and Rural Water Supply Technology Association, the China Agricultural Reclamation Water Saving Agriculture Industry Technology Alliance, Beijing Internet of Things Intelligent Technology Application Association, and Zhenwei International Exhibition Group.

As one of the world's three largest irrigation exhibitions, it is an innovative highland linking digital agriculture and irrigation technology at home and abroad, and is also **the most professional and largest digital agriculture and irrigation exhibition in China** . The exhibition covers four exhibition areas: "water-saving irrigation, digital agriculture, modern facility agriculture, and modern farmland construction".

The conference will be an innovation highland connecting digital agriculture and irrigation technology in Beijing and international, as well as China's most professional and largest wisdom agriculture and irrigation exhibition. It brings together companies and professional visitors from more than 10 countries and regions including the United States, Italy, the

Netherlands, Israel, Australia, Spain, France, Turkey, Cyprus, Japan, and South Korea to participate in the exhibition and conference.

This conference will provide a stage for global and regional exhibitors to showcase the latest technological achievements, exchange experiences and cooperation opportunities. It will help enterprises understand the needs and trends of the international market, explore cooperation opportunities, and expand international business. In 30,000 square meters of exhibition space, 800 companies from 33 countries and regions around the world will display world-leading advanced equipment and technology, including 20 of the world's top 500 companies.

More than 15,000 buyers from more than ten countries and regions will attend, including the United States, Italy, the Netherlands, Israel, Australia, Spain, France, Turkey, Cyprus, Japan and South Korea.

In the same period, the Southeast Asia Agricultural Irrigation System Promotion Conference, the Silk Road countries and Russia Agricultural Irrigation System Promotion Conference, the Beijing International Wisdom Agriculture Conference, the world's first new technology and new products promotion conference, the global intelligent agricultural equipment innovation Ceremony and other activities will be held, bringing together the world's agricultural cutting-edge technology and promoting international trade cooperation.
