Farmmi establishes Farmmi USA Inc to deepen international business strategy and to leverage its new platform in North American market

Farmmi establishes Farmmi USA Inc to deepen international business strategy and to leverage its new platform in North American market

Lishui, headquartered Farmmi, Inc., an agriculture products supplier in China, has established a new wholly-owned subsidiary FARMMI USA INC. in the U.S. The company deepens its international business strategy, following the establishment of FARMMI CANADA INC., a wholly-owned Canadian subsidiary in 2022.

Farmmi plans to leverage its new platform to expand its growth in the important North American market, which is one of the world's largest markets for high-quality agricultural products.

Zhang Yefang, Chairwoman and CEO, stated, "The establishment of FARMMI USA INC. is another important step forward in the Company's long-term success and internationalization. The establishment of a U.S. subsidiary furthers our integration of multiple advantageous resources to create a broader business platform. At the same time, it will allow us to more fully benefit from the strong demand to connect with the highly attractive, large and growing Asian consumer market."

Farmmi Inc. is an agricultural products supplier, processor and retailer of edible mushrooms like Shiitake and Mu Er, as well as other agricultural products.
